## Rohan Carr - Live Video CV

Hi! I'm Rohan. Alongside my work in Stage Management, as a freelance live video technician and camera director I've spent the past two years developing my business Serious Entertainment Group, shooting live video, including broadcasting theatre shows and live music online, shooting EPKs for an array of theatrical productions and creating a longform behind-the-scenes documentary for a theatre production.

With my own equipment, extensive network of suppliers and knowledge of theatre, my aim is to expand further into the theatrical world, shooting full length multi-cam shows, further expanding my work on EPKs and archiving theatrical productions. I believe as a videographer with an extensive background in theatre, my experience allows me to second guess action and work collaboratively with creatives to ensure my work best captures the work they aim to create.

I would love to collaborate with existing video companies, venues or producers looking to capture high-quality, dynamic and intimate video for their live performances. A selection of work highlights are detailed below.

### Relevant Professional Experience (Video Specific)
